

NEW ACCIDENT ASSISTANT APP BY PANTER, PANTER & SAMPEDRO, P.A. OFFERS ESSENTIAL TOOLKIT FOR AUTO ACCIDENTS

Panter, Panter & Sampedro, P.A. has unveiled **"Accident Assistant,"** its new free mobile app for Android and iPhone devices. The app connects users with helpful resources on the scene of the accident via their mobile phone.

Auto accidents are one of the most frightening and disorienting experiences in a person's life and yet one of the times people should be most alert and aware. Panter, Panter, & Sampedro P.A., a Miami-based personal injury law firm, has launched the Accident Assistant app, a free application that helps those in car accidents organize accident details during a stressful time.

Accident Assistant offers useful tools for those in accidents, including:

- Recording accident information
- Storing photographs and videotapes of the accident scene or injuries
- A virtual insurance card
- A flashlight for nighttime accidents
- Instant texting with the Panter, Panter & Sampedro, P.A. office
- Push-button calling
- Case information submission

This app makes it easy to quickly submit case information to Panter, Panter & Sampedro, P.A. for a free consultation and attorney review. The app also features instant contact options like live texting with the law office, push-button calling and case information submission.

"We represent many car accident injury victims, and saw a need for a simple, straightforward way to record all the vital details at the scene of the accident, before memories fade," says Mitchell Panter, co-founder of Panter, Panter & Sampedro, P.A.

Studies show people overestimate their ability to remember things accurately; Accident Assistant will help improve retention. **"Knowledge is power and we'd like to help those in this kind of stressful situation retain as much as possible,"** adds Brett Panter, co-founder.

"One of the best features of the app is communication. You're texting with your attorney's office in the moment; you can't get better service than that," says partner David Sampedro.

This is the first app offered by Panter, Panter & Sampedro, P.A. To learn more about the app or to download it, search for **"Panter Law app"** in iTunes or Google Play. Additional information about Panter, Panter & Sampedro is available at Panterlaw.com.
